SaaS job marketplace for remote and flexible work

- Own the roadmap for 26+ enhancements across employer, job-seeker, and admin workstreams, prioritizing business impact, effort, and engineering hours.
- Integrated GitHub and Claude Code for approved implementation tasks and agent-supported testing, documenting bugs and potential security findings for developer review.
- Translated recruiting workflows into engineering-ready specifications for job attribution, routing, permissions, and payments.
- Modeled pricing, bundles, upsells, and subscription proration, identifying $60K–$140K+ in potential annual revenue upside.
- Analyzed 3,451 cancellation responses with AI; linked 80.7% of churn to price and job relevance and shaped trial, recovery, win-back, and coupon initiatives.
- Used AI-assisted SQL and classification to analyze talent supply and demand, recategorizing approximately 45% of postings tagged “Other” to expose role-specific gaps.

Mental health SaaS platform and professional community

- Built abandoned-cart email automations that increased checkout conversion from 2.7% to 7.3% in six months; developed the analytics dashboard with AI assistance.
- Opened revenue streams through partnerships and vendor storefronts; designed the forum experience and scoped CE tracking and membership synchronization improvements.
- Produced five SEO landing and feature pages plus blog, onboarding, and lifecycle content; applied AI across requirements, QA, and developer documentation.

Fractional Digital Project Manager

Partner-based Pet Insurance Offering | Oct 2024 – Sep 2025

- Led delivery of the website, insurance quoting tool, and customer portal from planning through launch, managing scope, timelines, dependencies, and stakeholder reviews.
- Managed quote-tool development against insurance partner specifications, coordinating testing, issue resolution, and submission for approval.
- Coordinated weekly reviews with the CMO, CPO, and Sales Director to assign ownership, resolve dependencies, and maintain launch alignment.
- Developed a go-to-market playbook across four market segments, with campaign plans, audience messaging, sales training frameworks, pitch decks, and scripts.
- Prepared customer support protocols, social strategy, initial content, and affiliate collateral to support continued execution after the engagement.
